

Logging Into eLMS with MyAccess

All FAA users log into eLMS with their PIV Card and/or FAA email address, PIN, and security questions.

What Do I Need to Do?

When you log into eLMS, simply follow the instructions on the screen. You may be prompted to register your first time logging in with your PIV card or your FAA email address. Simply follow the on screen prompts to register.

Is your PIV Card Ready?

Before you can register for MyAccess, you must fully enable your PIV card. If you are unsure if your card is fully enabled, check the status by using the [PIV Health Check](#) webpage while on the FAA network. For help with your PIV card, you may need to contact your local security office or 9-NATL-PIV@faa.gov. For more information about MyAccess, see the [PIV for Applications](#) on MyFAA.

Questions?

Email the FICAM Program Team at 9-NATL-MyAccess@faa.gov.
